

NuCONTAINER™

Prefabricated Shipping Container Powerhouse

MODERN.
PROVEN.
RELIABLE.

The NuCONTAINER™ takes advantage of industry-standard ISO shipping containers, as well as our NuTURBINE™ to provide a modular, standard system intended to minimize installation and hydro power site costs, eliminating the need for a classic powerhouse structure.

Providing an innovative hydropower solution for remote communities, irrigation districts, mining applications, run of river applications, and independent power providers.

- Reduces civil works requirements
- Built at factory & delivered completed to site
- Building block to standardize site setup

STANDARD

Significant cost & time savings

MOVABLE

Easily transported or relocated

OFFERED IN SINGLE, DOUBLE, OR TRIPLE TURBINE CONFIGURATION
